

... the innovation in resin
technology

Joining both innovation and proven technologies: Cellpack new resin injection technology, easy and safe for installations and handling. **Mixing and injecting in one step**, we achieve the highest possible efficiency. **Huge time saving**, and a perfect **garanteed mixing-ratio**, linked to Cellpack's 40 years resin experience lead to a reliable and user-friendly final product. The cartridge is reclosable, so that you have the flexibility to use only the required resin quantity, and then use the rest at a later stage. The empty cartridge can be disposed of as standard domestic waste.
Easy, reliable and quick = AMX!

Systems For Professionals

CELLPACK

Electrical Products

AMX 1200

Automix Injector

Technical Information

- Fulfill the electrical type test in an independent test laboratory in accordance to NEN-EN 50393 (10m water depth)
- Patent-registered solution for „cleaning the excessive hardener quantity“
- „Green Solution“ due to recyclable cartridge

Big Advantages

- Less installation mistakes due to the defined mixing process
- One cartridge instead of three bags
- Less installation time (only seconds instead of minutes before)
- Easy to install
- Well known reliable technology based on EG resin
- Reusable / reclosable cartridge
- Reduced Labour activity for the installer

Order details

	Typ	Art.- No.
①	AMX-C 1200 - EGK Cartridge for injection system with static mixer	249007
②	AMX Cartridge cleaning set	250181
③	AMX Static mixer	248494
④	AMX Injection tube	247597
⑤	AMX-APT 1200 Battery pack-Powered-Tool	250253
⑥	AMX-HPT 1200 Manuel-Tool	250251
⑦	AMX-APT 1200 Battery pack 12V	250223
⑧	AMX-APT 1200 Battery pack-Charger	250229
